

## Exercise 3: Test Execution Order

### OrderedTests.java

```
import org.junit.jupiter.api.Order;
import org.junit.jupiter.api.Test;
import org.junit.jupiter.api.TestMethodOrder;
import org.junit.jupiter.api.MethodOrderer.OrderAnnotation;
```

```
@TestMethodOrder(OrderAnnotation.class)
public class OrderedTests {
```

```
    @Test
    @Order(1)
    void testOne() {
        System.out.println("Test 1");
    }
```

```
    @Test
    @Order(2)
    void testTwo() {
        System.out.println("Test 2");
    }
```

```
    @Test
    @Order(3)
    void testThree() {
        System.out.println("Test 3");
    }
}
```
